Parents and Teachers Home Support
Week beginning 13/6/10

Dear Parents of Children in Year 6,

The children are preparing for their end of year play due to be performed on Monday 28th June. We will send you details closer to the time. The children who do not have specific characters to play will run rehearsal sessions for small groups to practise their parts.

PATHS	English	<ul style="list-style-type: none">The children will need to learn their lines working from the script that they have. It may be beneficial for your child to highlight their specific part. Those children who do not have assigned parts will have been given a job to do making props or gathering costumes, please encourage them to work on this.
	Maths	<ul style="list-style-type: none">Following on from our successful week on planning a holiday, the children will be preparing a brochure and a PowerPoint presentation on the holiday they have picked for their teacher. The child who presents a holiday that is most convincing will be awarded a small prize.
	Science	<ul style="list-style-type: none">After our successful week on 'Bubble Making' we will be asking the children to add viable solutions to their own particular one which they believe will improve the longevity or appearance of bubbles they can create. They will need to investigate this at home and come to school with the solution/s they have used and prove their result.

For the remaining weeks we will be looking at World War 2. If you have any family who would be able to share their experiences with the children please contact your class teacher.

Kind Regards,

Liz Doig
