

Our Vision:

One School, One mission, Common Ownership

As always there have been sooooooo many things happening at AAESS as always it is soooooooooooooo hard to fit everything in this edition of **AAESS Buzzz**. We're certainly not going to miss this opportunity though, to thank existing parents and children for their continued support and to give a warm welcome to everyone that has joined the AAESS family

Ancient Egyptian Visitor in School

ICT in RG

It has been a fantastic start to the year for Reception Classes. Here is Reception G hard at work in ICT working on our phonics with the Alphablocks – look at the concentration!

This term Year 3 were fortunate enough to have an Ancient Egyptian visitor in their classrooms! We would like to say a huge thank you to Libby's mum for bringing this topic to life and helping us travel back in time!

Terrible Joke of the Week

Q. What car does Luke Skywalker drive?
A. A Toy-Yoda

Keystage 1:
Being creative and learning Maths through games.

Our New Clock

NP Clock study

The class was presented with a new clock. We took the time to observe it - its markings and numerals, the shape and its colourings. We discussed our own experiences with 'clocks'....*do we have (something like this) these at home? In our cars perhaps? What are clocks used for? Where have you seen clocks? Have you been to 'clock roundabout?') What can you see on the clock here in front of you?*

The children have enjoyed learning through games and being very creative this term. In Art, we are learning to draw ourselves, and in Year 2, we have thoroughly enjoyed making self-portraits where we used pasta and noodles to form our 3D frame. The children loved watching the finished product being sprayed with spray-paint! Or were they laughing at Mrs Bakker full of paint??

In Maths, we have taken our learning experience outside of the classroom. The children loved playing hop-sotch maths, learning odds and even numbers through play. It is so lovely seeing the children play hop-sotch at break times now too! Who said school wasn't fun!! In Key Stage 1, we are having plenty of fun, and so it will continue.....

Improving Communication... Home—School Partnership

Thank you to everyone that managed to attend the SLT Secondary and Primary coffee mornings. We were also delighted by the response to our first coffee morning in Arabic/English. Over 60 parents attended the 3 events.

Our Parent—Teacher working parties —looking into improving the Concerns and Complaints procedures—got off to a very good start with 16 people joining in. Further workshops will take place later this term.

Appointments for our Parent-Teacher Consultation Evenings have been made and we look forward to seeing you at these vitally important meetings.

Young Scientists

The Year 4 classes have been exploring Solids and Liquids in Science this term. Students, pictured here from 4A and 4LS, experiment with liquids and their volume.

Important Safety Notice After you collect your children from the classroom at the end of the day please ensure they remain with you and are appropriately supervised.
