

Monday, 5 October 2009

Dear Parents and Guardians,

I hope that you have all had a peaceful and happy Ramadan. The new section of the Secondary building has been fully opened to students, the corridor space and improved lighting has helped in providing a comfortable learning environment.

The Gym and Swimming pool are scheduled for completion towards the end of Term One although we are hoping that it will be a little sooner. The swimming pools have been finished and now the internal fixtures, painting and wiring can be completed.

The new hall at the back of the Secondary block will be open soon, the air conditioning has been completed, all that needs to be done is laying the wooden floor. This is a much anticipated addition to the school facilities and I am sure will be well used by the students and teachers.

Term fees

Thank you to all parents that have paid term one fees on time. It is important that all fees are paid by the due date, I realise that some families have their fees paid or subsidised by the company they work for. However, the school has a contract with you and not your company.

We will start sending reminder letters to families, each reminder letter states a number of days that the fees should be paid by. After that time the next letter is sent out, once the third reminder has been sent and no fees have been paid then the school will have no choice but to place those children named in the letter on financial suspension.

This is not an option that the School wants to take as the education of your children is extremely important to us and we realise that any time away from school can cause problems later.

If you have any questions please call the School and ask to speak to me or to the accounts department.

Yours sincerely,

Peter Hodge BEd, DipHE, MSc, MBA, MACE, FRSA
Principal
